Customer Problem Statement Template :

The **Metro Ticket Generation System in ServiceNow** project is designed to simplify the process of booking metro tickets through a digital self-service portal. Instead of standing in long queues at metro stations, passengers can easily select their journey details, submit a request, and receive a digital metro ticket with a QR code. By leveraging ServiceNow Service Catalog, workflows, and automation, the system ensures quick ticket generation, automated approvals (if required), and a seamless travel experience. This solution improves efficiency, reduces manual effort, and provides passengers with a secure and contactless ticketing process.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Metro Passenger	Book a metro ticket quickly	I have to stand in long queues	Manual ticketing process	Frustrated and delayed
PS-2	Daily Commuter	Use a digital QR ticket	Physical tickets can be lost	No centralized digital system	Inconvenienced
