Maximum Marks	2 Marks

Proposed Solution

The **Metro Ticket Booking System** in ServiceNow automates the entire ticket issuance process using the Service Catalog, Flow Designer, and dynamic QR code generation. Passengers can book tickets through a self-service portal, and the system automatically validates the request, processes the payment, generates a unique QR code, and sends it to the user via email notifications. This solution eliminates the need for manual ticket counters, accelerates the passenger entry process, and provides a seamless, digital travel experience.

Objectives

- Automate the metro ticket booking process
- Eliminate manual queuing at ticket counters.
- Provide instant digital ticket delivery (QR codes).

Key Features

- Self-Service Portal for booking.
- Automated payment and ticket generation.
- Dynamic QR code display and email delivery.
- Real-time transaction and status tracking.
- Automated notification system.

Expected Benefits

- Reduced waiting times for passengers.
- Lower operational costs and manual errors.
- Enhanced transparency in fare collection.
- Scalable solution for high-volume traffic.

PROPOSED SOLUTION TEMPLATE

Project Title : _____ Date : _____
Prepared By : _____ Version : _____

1. SOLUTION OVERVIEW

Provide a brief overview of the proposed solution, its purpose and how it addresses the identified problem.

2. OBJECTIVES

List the key objectives that the proposed solution aims to achieve.

- _____
- _____
- _____
- _____
- _____

3. TARGET USERS / STAKEHOLDERS

Identify the primary users / stakeholders of the solution.

- _____
- _____
- _____
- _____
- _____

4. PROPOSED SOLUTION DESCRIPTION

Describe the proposed solution in detail including key features, functionalities and technologies to be used.

5. KEY FEATURES / FUNCTIONALITIES

List the major features / functionalities of the solution.

- _____
- _____
- _____
- _____
- _____

6. SOLUTION ARCHITECTURE

Provide a high-level view or diagram of the solution architecture.

(Insert Diagram / Architecture)

7. IMPLEMENTATION APPROACH

Outline the approach and steps to implement the proposed solution.

Phase	Activity / Task	Description	Deliverable	Timeline

8. EXPECTED BENEFITS

List the expected benefits and value the solution will deliver.

- _____
- _____
- _____
- _____
- _____
